This chart is for physical fitment information only, for recommendations based on usage and modifications, please see our Recommendation Guide.

## KEY

■ Fits and is compatible with factory controller and motor (drop in)

■ It will fit and work, but our green recommendations are better options.

■ Fits but will require upgraded controller and/or motor

■ Does not fit and/or will not work with this cart (will require lots of modification)

Note: These eco battery conversions are for carts originally equipped with lead-acid batteries!
