

AUDIO CONSOLE BOX

MJRC8000C MJRC8000B MJRC8000W

Mounting Plate

Console Box

4 Large Screws

12 Small screws

Using provided templates, find your cart model. Align outer edge of mounting plate to template and drill 5/16" pilot holes where indicated on templates. Center mounting plate where desired on cart canopy.

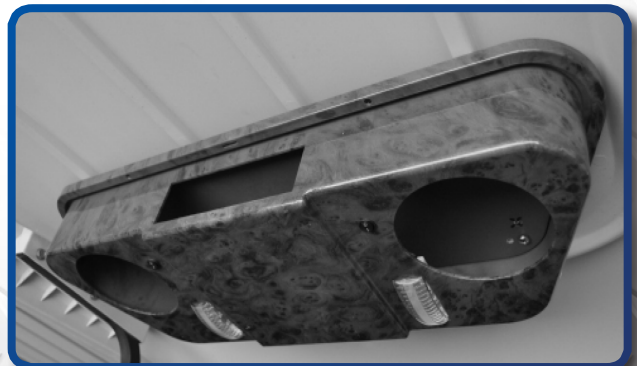

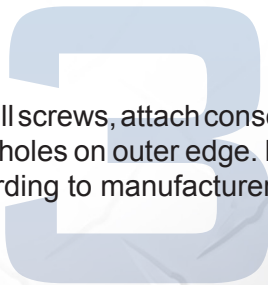

Attach mounting plate to canopy using large screws where pilot holes were drilled.

IMPORTANT: Yamaha® Drive® and G22® and some after market canopies do not have a double layer and the holes may go all the way through roof. Waterproofing may be necessary after installation.

Using the small screws, attach console to mounting plate through holes on outer edge. Install stereo in console according to manufacturer instructions.
